

INTELLECTUAL PROPERTY RESEARCH PLATFORM

Project Agreement

Designer: Codementor Hub Development Team

Executive: Taiwo Timothy Oluwagbenga (MD/CEO)

Client: _____

Date: June 27, 2026

Project Overview

Development of an intellectual property research platform providing trademark search, watch, and analytics capabilities across multiple jurisdictions. The platform will include instant search, confusion risk analysis, Office Action research, and portfolio management features.

Deliverables

Phase 1: Discovery & Architecture (Weeks 1-2)

- API integration mapping and requirements
- Data model and system architecture
- Technical specification document

Phase 2: Backend Development (Weeks 3-8)

- Multi-source trademark database integration
- Search engine with similarity algorithms
- Confusion risk analysis engine
- Portfolio watch and notification system
- User authentication and billing management

Phase 3: Frontend & UI (Weeks 4-9)

- Search interface and results dashboard
- Data visualization components
- Portfolio management interface
- PDF export functionality

Phase 4: Testing & Deployment (Weeks 9-12)

- Testing and quality assurance
- Security audit

- Cloud deployment and configuration
- Documentation and training materials

Technology Stack

Component	Technology
Backend	Node.js + Express
Search Engine	Elasticsearch
Database	PostgreSQL + Redis
Frontend	React.js with TypeScript
Visualization	D3.js or Recharts
Hosting	AWS or Google Cloud

Financial Terms

Total Project Cost: ~~₦~~300,000

Deliverable	Cost
Backend Development	₦ 100,000
Frontend & UI Design	₦ 80,000
Database Design & Data Ingestion	₦ 50,000
Testing, Security, Deployment	₦ 40,000
Documentation & Training	₦ 30,000
TOTAL	₦ 300,000

Payment Schedule

1. ~~₦~~200,000 upfront upon contract signing
2. ~~₦~~100,000 upon completion and successful deployment

Yearly Renewal

~~₦~~200,000 per year for hosting, maintenance, and uptime SLA.

Bank Account

Account Name: Codementor Hub

Bank: Kuda

Account Number: 3002886906

Timeline

Week	Milestone
1-2	Discovery, architecture, technical specification
3-8	Backend development, database setup
4-9	Frontend development, UI/UX implementation
9-12	Testing, security audit, deployment

Terms

Scope

This agreement covers design, development, testing, and initial deployment.

Marketing, sales, and customer acquisition are excluded. Data licensing fees from trademark registries bills will be taken care of by the client.

Intellectual Property

Upon full payment, the Client owns all source code, databases, designs, and documentation.

Warranty

- 30-day bug fix warranty post-launch
- 99.5% uptime SLA during yearly renewal period
